bob.chase@pfgusa.com
www.Deutz-FahrAmerica.com
Deutz-Fahr's new final tier 4 orchard/vineyard tractors only use a diesel oxidation catalyst (DOC) to meet the latest emission requirements. Power comes from either a 2.9L or 3.8L, three or four cylinder engine, turbocharged and intercooled. The DOC insures reliability, simplicity of operation while maintaining a low profile hood line. Standard equipment includes four wheel braking, front wheel braking, front and rear differential lock, and various configurations to meet the demanding needs of specialty tractor applications.
